

→ Describe 3 works you have made this year.

*Here are some ideas and guidelines - but feel free to answer any way you want.*

Description and intentions.

Please include a photo, sketch or diagram.

Describe the materials and techniques you have used.

What are you trying to express? (Do you know yet or even care ?) Message / emotion / atmosphere / symbolism / rational or irrational feelings...

Can you identify any particular sources of inspiration ? What feeds your art ? (Artists, writers, music, images, encounters, experiences, philosophical or spiritual convictions...)

Analyse the way you work.

*Instinct* (dreams, relaxation, meditation, sports, sex, drugs and rock'n roll, stroking black cats...)

*Research* (visual imagery on-line, in books or magazines, texts, conversations, drinking in bars, working at Quick, playing poker...)

*Accumulation* (collection of objects, artefacts, observations, ideas, experiences)

*Accident & serendipity* (making, doing, trying out, chance discovery, routines or rituals, creating series, building or destroying... )

Critical distance

If you were an interested spectator (or heartless art critic) what would your first impressions be ? What questions might you ask ? What echoes might you find in other works of art ?

Future directions

How could you improve this particular work or your work in general ? New strategies, materials, simplifications or maybe spend a year on a desert island...
